PROFESSIONAL SUMMARY

Software Engineer with 2+ years of professional experience developing enterprise mobile and web applications using Flutter, Dart, and React.js. Experienced in building Human Resource Management System (HRMS) and Contact Management System (CMS) solutions across mobile and web platforms. Skilled in RESTful API integration, state management, responsive UI development, production releases, and Agile methodologies. Trained and mentored 20+ interns in Flutter and web development.

TECHNICAL SKILLS

Mobile: Flutter, Dart, Firebase, Provider, BLoC, SQLite, SharedPreferences, null safety

Web: React.js, JavaScript, HTML5, CSS3, Bootstrap, Redux, Material UI (MUI), React Hook Form, Yup, Axios, jQuery

Development & tools: RESTful APIs, JSON, Postman, Swagger, Git, GitHub, Azure DevOps, Figma, Agile/Kanban, OOP, SQL, MySQL, PHP, Laravel

PROFESSIONAL EXPERIENCE

Software Engineer – Estarta Solutions Aug 2024 – Present

Flutter Mobile Development | HRMS & CMS

- Develop and enhance enterprise HRMS and CMS mobile applications using Flutter and Dart, including employee self-service workflows, attendance, leave management, salary slips, overtime and offboarding.
- Build reusable, responsive Flutter interfaces from Figma designs, integrate RESTful APIs and handle asynchronous responses, validation, error states and application navigation.
- Use Provider and BLoC patterns where appropriate for state management; troubleshoot defects and improve stability with Flutter DevTools, Postman and Swagger.
- Contribute to production build and release activities for iOS and Android, including publication through the Apple App Store, Google Play and Huawei AppGallery.

Front End Development | HRMS & CMS

- Develop and maintain React-based web interfaces for HRMS and CMS, supporting enterprise workflows, administrative features, and data-driven user experiences.
- Contribute to a separate external web onboarding project, implementing request forms, manager views, approval workflows, field validation and document-review functionality using React, Redux, Material UI, React Hook Form and Yup.
- Integrate frontend components with backend REST APIs, maintain shared UI behavior and troubleshoot issues involving dependent dropdowns, form defaults and data presentation.
- Collaborate with product and technical teams using Git, Azure DevOps and Agile/Kanban processes to deliver changes, resolve defects and support deployments.

Technical Training & Mentorship

- Deliver Flutter and web development training to 20+ interns covering HTML, CSS, JavaScript, React.js, Flutter, state management and API integration.
- Prepare practical assignments, guide project implementation, review technical work and provide individual feedback and evaluations.

ADDITIONAL EXPERIENCE

Software Developer | Qahwa BLK Hackathon 14th Aug 2026

- Contributed to mobile application development during the hackathon, translating project ideas into practical solutions.
- Ranked among the Top 10 finalists out of 30 competing teams in the Qahwa BLK Hackathon.
- Participated in Replit training, project planning, and brainstorming sessions to propose enhancements to the Qahwa BLK platform.

Software Developer & Team Lead | Fintech Rally Hackathon May 2024 – Jul 2024

- Led development work on a web and mobile dispute-management concept for Jordan's instant payment systems, including CliQ and JoMoPay.
- Reached the hackathon finals among 18 teams representing 10 universities.
- Participated in advanced training on React.js, React Native, Camunda, UX/UI design, API integration and payment-system workflows.

Full Stack Developer Intern | Hello World Kids.org Mar 2024 – May 2024

- Developed responsive web interfaces and project features using HTML, CSS, JavaScript, Bootstrap and React.js.
- Worked with PHP, Laravel, MySQL and object-oriented programming fundamentals in full-stack web development tasks.
- Used Git and GitHub for version control and to organize development changes.

Full Stack Developer Intern | Clever Mind Pob ICT Mar 2023 – Mar 2024 | Remote

- Developed responsive websites using HTML, CSS, JavaScript, PHP and MySQL, translating requirements into practical web interfaces.
- Implemented CRUD operations and maintained administrative screens; resolved bugs and supported ongoing application improvements.
- Integrated REST APIs and JSON data, using jQuery to implement interactive behaviors.
- Worked with product requirements and design documentation (PRD/PDD) to understand feature needs and implementation expectations.

EDUCATION

Bachelor of Science in Computer Information Systems | University of Jordan | Jul 2024 | GPA: 3.47/4.00

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- Meta React Specialization: React Basics and Advanced React (Coursera)
- Google UX Design Professional Certificate
- The Complete Flutter Development Bootcamp with Dart (Udemy)
- The Complete Web Development Bootcamp (Udemy)
